Hello Nichole,

I've reviewed the document and have a few suggested edits and clarifying questions in the attached. Also, I appreciate the comment summary that you sent and built it into this request as an appendix, since this particular request will be going to OMB concurrently with several others.

I'm happy to answer any questions you might have.

Good morning Kevin,

Hope all is well. Attached is the significance determination for R6 OCS GP and a summary of the major comments received. We are requesting expedited review based on permit expiration date back in September 30, 2022 and significant interest from industry as well. Please see attached and let me know if anything else is needed.

Thanks,
